Profile Summery

Enthusiastic Artificial Intelligence & Data Science student with foundational knowledge in Python, machine learning concepts, and data analysis. Experienced in academic AI projects and committed to leveraging data-driven approaches to solve complex problems. Quick learner with strong analytical thinking and a passion for exploring emerging technologies to build innovative solutions.

Skills

- **Research Method:** Literature Review, Data Collection & Analysis, Problem Identification, and Experimental Design.
- **Design Tools:** Jupyter Notebook, Google Colab, Tableau, Power BI, and Matplotlib/Seaborn for data visualization.
- **Coding Skills:** Python, C, R, Java
- **Data Science Skills:** Data Cleaning, Exploratory Data Analysis, and Machine Learning Fundamentals. NumPy and Pandas for data manipulation, along with Data Visualization techniques.
- **Testing:** Debugging and code validation for ensuring accuracy and reliability of data analysis workflows. Basic unit testing and manual verification of data preprocessing, model outputs, and results.
- **Soft Skills:** Strong communication and teamwork skills for collaborating on data-driven projects and presenting insights clearly. Analytical problem solving, effective time management, and adaptability in handling complex datasets and evolving project requirements.
- **Other Skills:** Version control using Git & GitHub, MS Office for data reporting, and effective presentation of analytical insights. Technical documentation practices and basic web development skills for deploying and showcasing data science projects.

Academic Projects

- **Student Placement Prediction using Machine Learning — Student Developer**
- **Digital Inclusion & Automated Financial Health Assessment Platform — Project Developer**
- **Jewellery Price Prdiction & Machine Learning Linear Regression – Project Developer**
- **Boston- Housing- Price- Pridiction Machine Learning Linear Regression – Project Developer**
- **Supermarket Product Management System Using Python Data Structure Array's**
- **Buggy Foods –AI-Powered Full Stack Restaurant Website – Project Developer**

Education

Bachelor Of Technology | Artificial Intelligence & Data Science | Dr Mahalingam College of Engineering and Technology | Pollachi, Tamil Nadu | Sep 2024 – May 2028
